Counsel the diabetics

Smokers and asthmatics  
Volunteers are great!

## CHORUS

Fillings and drillings  
Scalings and orthodontics

X-rays and facesheets  
Extractions and root canals

Weekly buses <clap>  
Loaded with lots of children  
Volunteers are great!

---

Check-ins and check-outs  
Appointments and many phone calls

Copies and filing  
Why are the charts all missing?

Go find Jody <clap>  
Another over booking

## CHORUS

Voice mails and phone calls  
How to become a patient

Sign this and sign that  
We never received your faxes

Next appointments <clap>  
Not until January  
Volunteers are great!

---

Inputting Facesheets  
Ensure we have the right statistics

Can you decipher  
Whose signature is on the facesheet?

Length of visit <clap>  
What's the diagnosis?  
Volunteers are great!

## CHORUS

Interpreters sure help us  
When we can't communicate

Please all providers  
Speak clearly right to the patient

Now I can't think <clap>  
Of that word in English  
Volunteers are great!

---

Shredding and painting  
Cleaning and changing light bulbs

Golfing and pleading  
Grant writing and fundraising

Could not function <clap>  
Without each one of you  
Volunteers are great!
